

Finance

Finance for Non-Financial Managers

Regardless of your role within an organisation, it's important that you understand how well it's performing on an economic level. This module explores the basic elements of an organisation's accounts, including how its trading activity is recorded on the Profit and Loss Statement, how those figures are then adjusted to reflect the amount of cash generated in the Cash Flow Statement and how the final numbers appear on the Balance Sheet.

5 Question knowledge check

Top Tips

1. The Profit and Loss statement summarises sales revenue and organisational expenses to determine the profit, or loss, generated.
2. The Cash Flow Statement summarises the amount of cash coming into and going out of the business.
3. The balance sheet provides a summary of the organisation's financial position.
