

Health & Safety

Slips & Trips

Slips and trips are a major cause of injury at work, so this course is designed to help you avoid the risk of slips or trips in your workplace. We will explore the differences between a SLIP and a TRIP, consider the problem areas which could lead to an accident and what to do if you see a spillage or tripping hazard in your workplace. Finally we will look at ways of reducing the likelihood of slips and trips in the workplace.
