Problem Solving

When someone, or something, is not performing as expected then a problem exists that needs to be solved. This module explores the P.A.I.D method of problem solving and the creative techniques that can be used to identify the nature of a problem.

In this Module

Videoscribe explainer video, with professional audio (duration: 03:27)

English Subtitles

5 Expanded learning content blocks in the module format

'Check my understanding'
5 Question knowledge check

Top Tips

1. Set a problem statement, a single sentence specifying the problem you aim to solve.
2. Analyse what went wrong and what went right.
3. Review the problem-solving process to improve your skills for the future.
